

A high-angle, wide shot of a rugged mountain valley. In the foreground, a winding asphalt road follows the left bank of a wide, shallow river with milky, white water. The river flows from the background towards the bottom right. The surrounding mountains are steep and rocky, with visible erosion patterns and some snow patches on the higher peaks. The sky is filled with heavy, grey clouds, creating a moody atmosphere. The overall color palette is dominated by earthy browns, greys, and the white of the snow and river water.

## ADVISORY

- ❑ High altitude may lead to Acute Mountain Sickness due to lower oxygen pressure than usual. Some of the symptoms include headache, nausea and more. It is hence advised to acclimate yourself to this altitude. Consuming garlic, ginger water, chocolates or chewing gum can be helpful. You can also take medications as prescribed by your doctor, to reduce the symptoms of altitude sickness. Make sure to consult your doctor before taking the medicine.

- ❑ There are network issues in certain parts of Ladakh. Hence inform your family and friends about the same. However, Airtel and Jio postpaid have decent network in most parts of Manali, Jispa, Leh, Kargil and Srinagar.
